📍 Cebu City, Philipnes

### SUMMARY

Over 3 years of experience in blockchain development, analysis, development and maintenance. More than 6 years of mobile and web app development both with front-end and backend as a full-stack developer. Started my early career in web development in several companies, and continued to blockchain. Especially, when it comes to backend, I'm a expert.

### WORK EXPERIENCE

06/2021 – present  
Manila City, Philippine

#### **Full-Stack Developer**

##### **Front-end work (user side)**

- Building responsive websites and web apps
- Creating user interfaces (UI) with frameworks like React, Angular, or Vue
- Improving user experience (UX)
- Making apps work on mobile and desktop

##### **Back-end work (server side)**

- Creating APIs (to connect front end and back end)
- Managing databases (MySQL, MongoDB, PostgreSQL)
- Writing server logic using Node.js, Python, Java, etc.
- Handling authentication (login systems, security)

03/2019 – 05/2021  
Cebu City, Philippine
